Dear colleagues,

Many thanks for your willingness to present your work at ISBGMO14. Your presentation(s) will be key contributions to the symposium!

Please find below some instructions regarding your talk(s):

- Keynote speakers are offered a slot of 30'; 25' for the talk followed by 5' for Q&As;
- For a talk in one of the three plenary sessions (excluding the keynotes), slots of 20' are foreseen; Q&As will be taken/given at the end of the session during the moderated panel discussion;
- For a talk in the parallel sessions I, II, III, IV, V, VI, X, XI and XII, slots of 20' are foreseen; Q&As will be taken/given at the end of the session during the moderated panel discussion;
- For a talk in the parallel sessions VII, VIII and IX, slots of 25' are foreseen; 20' for the talk followed by 5' for Q&As because these three parallel sessions do not include a moderated panel discussion.

The draft program (version of 24 April 2017) is attached for your information. This will enable you to check in which session(s) your talk(s) is/are scheduled. Please be informed that further updates will be made on the ISBGMO14 website (e.g., exact time schedule), so keep on checking the website regularly.

Should you require further clarifications regarding your talk(s), please contact me and/or the organisers of the respective session (check CC list of this eMail).

For those of you who did not register to the symposium yet, we kindly encourage you to do so ASAP at <http://www.ira.cinvestav.mx/Difusi3n/ISBGMOMexico2016/tabid/1391/language/es-MX/Default.aspx>.

We truly look forward to your talk(s) and catching up with you in Mexico in June!

Thanks!

All the best,

Yann on behalf of the Scientific Program Committee
