Hi Heath,

Apologies for the slow response. I think it looks great overall and have just a few comments and suggestions below. I also wanted to ask about sharing this with our PIO folks here. I'm realizing that I'm not actually aware how they approach having NCSU included there (Fred - thoughts on that?). The MOU is not yet signed and wanted to note that since it could conceivably factor in.

Thanks, John

"The Genetic Biocontrol of Invasive Rodents (GBIRd) program is a partnership of seven world-renowned not-for-profit organizations"

- wondering if it would be better to say something along the lines of 'research universities, governmental research organizations, and a non-profit conservation organization'.

"Should we do it?" However, we know that many other assessments need to be done and questions remain to be answered."

- maybe 'we know that critical questions remain to be answered and careful assessments are necessary.'

"We are obligated to take this research cautiously, thoroughly, and step-wise."

- thinking "We are obligated to undertake this research in a cautious, thorough, and step-wise fashion."

Under "This will take time" there is the sentence "The diversity of assessments will need to run their course before we can ask ourselves ‘Could we?’, ‘Should we?’ and ‘Under what conditions’?"

- I think that is good overall, but am wondering whether avoiding 'ourselves' would be better - e.g., 'before we can collectively ask key questions including ‘Could we?’, ‘Should we?’ and ‘Under what
conditions’?

Last sentence: "The investigation of the suitability of gene drive for food security..." - this reads slightly awkwardly to me, which could be helped by making it 'gene drive approaches' I think.

Friendly reminder folks...we need your feedback on this site this week!

We intend to launch this next week so we’ve got an online presence for the GBIRd spokespersons presenting the Australia Vertebrate Pest Conference next week.

Thanks to those who have already responded!

On another note, we did not receive the grant for the branding strategy. We need to regroup. I think I’ll get some quotes from a couple marketing firms who do this kind of work, so we can have a concrete proposal to shop and a sense internally of the investment needed. More soon.

Best,

Heath Packard

Hi all,

A beta (development) version of our phase one website (a micro site ‘placeholder’ until we can develop/launch comprehensive site) is here for your review! The text is attached in word. What’s missing at this point is a newsletter sign-up module, another picture or two, and a bunch of technical back-end stuff. This is not live and should not be shared outside this group at this point. However, some GBIRd partners would like to point people to this at their talks during a conference beginning May 1, 2017.

So, if there is any way humanly possible, could you please review/edit (word using tracked changes) and/or sign-off on this micro-site going live by April 26? Please delegate or engage others from your organization as warranted and note that we do have partner logos and hyperlinks on the site currently...I know this will trigger external affairs or PIO reviews for some of you. Thanks!

Second, we’ve developed the attached template for you to use as an immediate follow-up with reporters once you’ve first engaged with them. This will help to ensure as balanced partner attribution and coverage in our media engagements as possible.

Cheers,

**Heath Packard**
