Hello GBIRd members from US based Research and Educational Institutions,

I have copied the rest of the Steering Committee for the awareness and input. This is the guidance for a Keck Proposal. It can only be from an US based research institution. I am copying graduate students and post docs as well because of previous discussions regarding the need support. Please consider a proposal for GBIRd related research. We can discuss during the next institutional GBIRd meeting or Steering Committee Meeting.

The timeline for concept papers are July 1 and August 15 leading up to a November 1 submittal. It will need to go through the institutional grant support team. John G (applied last round) or I can share the last concept paper if desired.

Warm Regards,  
Royden
