Hi Jamie,

I just wanted to check on whether this had progressed or not. The hard copies of the documents are in Raleigh right now and our Project Coordinator Royden Saah (copied) could bring them by for signature if we are ready for that either tomorrow or Friday.

Thanks, John

Hi Jamie,

Have been able to check and this doesn't commit NCSU to any financial input, at least to my not-legally-trained eye. The opening section contains the passage below and these ideas are reiterated elsewhere in the document:

" This MOU involves no exchange of funds between the Participants. Funding is expected to be addressed on a case-by-case basis during grant and/or other funding applications. Nothing in this MOU is intended to create legal obligations or embody a commitment by any Participant to expend funds not appropriated and administratively allocated for such purposes.

The Program Coordinator is Royden Saah and he is paid through our partner Island Conservation. Royden has a visiting scholar designation and room in a shared office space next to my office in David Clark Labs, but that is the extent of our 'hosting commitment' really.

Thanks, John

Hi Jamie,

It has not been run by legal to my knowledge. This has run through CALS too and so I am copying Fred Gould here in case he knows about this, but I don't think there are any real financial commitments included. I'm at a NSF panel right now, but can try to take a look later today for those features (although I guess legal would be the key judge?).

Thanks, John

John,

Has this been run by legal? What is the financial commitment for the programs that are covered in the MOU and where is the funding going to be coming from?

Jamie

Hi Jamie,

I am attaching copies of a MoU for a partnership (GBIRD) that we are participating in with several other organizations. This is generally associated with a DARPA award we are in contract negotiations on with most of the organizations also acting as subcontractors on the DARPA with NCSU as prime.

The hard copy documents will come to NCSU available for signatures next week, so I wanted to send these electronic copies along sooner for inspection by CoS personnel. Please forward this email to whoever handles this sort of thing or advise me and I can contact them directly.

Thanks, John Godwin
