Patti – it may not be obvious, but on my CV, I have a presentation listed that several of us gave at the White House Conference Center on behalf of GBIRD. Original invite was from the previous administration. I did not upload any pics, but just remembered I have one from that day (attached). The image on the right is stock showing where we were when the photo was taken. Those in the picture are Karl Campbell (Island Conservation), Owain Edwards (CSIRO), Dan Tompkins (Landcare Research). We are at the White House Executive Office Building. Photo release may be necessary if you would end up wanting to use this.

Copying Fred for awareness.
