Tony,

We'd like to talk to you about the fitness experiment analysis. Would you be available on Thursday June 8th after 10AM your time? If not, How about Friday the 9th?  
Fred

Thanks. Fred. I will go through it. OK to send it to John Marshall?

Hi Tony, Ethan and Valentino,  
We have finally submitted our manuscript on modeling reversal drives for review, and we published it on bioRxiv. <http://biorxiv.org/content/early/2017/05/30/144097> yesterday.

You are all in the acknowledgements for helping us with early discussions about this work. I know this was a long time ago. I'm sorry that it took so long to pull together the ms. There were lots of complexities in figuring out the modeling and how best to present it – Although Michael Vella did a great job in thinking this out, the manuscript could probably still use improvement, so your comments are very welcome.

Best wishes  
Fred
