Hi folks,

I was just listening to the podcast of this radio talk show that Karl participated in along with Edy McDonald, Mark Tizard, and Bidda Jones (thought it was really good and nice presentation of our project Karl). Mark referenced a document that is apparently circulating called '*Principles for the Funders of Gene Drive Research*' and I was wondering if any of you folks might know what the status of that is or perhaps the draft itself. Would be interesting to look at.
