Hi Royden,

I can forward it to Ditto's office, but really don't think that an appointment is necessary unless he requests it - probably hard to set up and I am jammed with other stuff anyway as we close the month. Just getting this DARPA thing actually completed is priority #1 as we can't travel to SD for the kick off meeting until that happens.

Thanks John,

This helps with scheduling. Please get all everything set for the examination by email. Can you set up an appointment for the week after next, just to ensure his schedule and your schedule line up?

We will route thru TAMU/NWRC first then. When it comes back to me at the end of next week, I will take to Fred (copied for awareness) for Dean Linton first.

Cheers

rs

Subject: Re: MoU Routing

Hi Royden,

This will likely need to be examined by the Dean's staff and then signed by him (presumably). I don't think we need an appointment for that actually and I'm not available next week to do that

anyway.

Hi NWRC, TAMU, and NCSU Partners,

The MoU signature routing is being amended. Karl checked in with Island Conservation CEO, Karen Poiani (copied), and found she will be out of town starting mid-day tomorrow. As such, I have sent the stack of MOUs to Santa Cruz today for delivery her signatures tomorrow.

The reason for this email is to ask you all to check in with Director Larry Clark, Dean Green, Dean William Ditto, and Dean Richard Linton regarding availability next week for obtaining their signatures. I will work with you to get the signatories' schedules into consideration of this routing process on the US side of the agreement. Of note is my schedule. I will be in Australia and New Zealand for several months leaving April 27th.

Attached for your convenience is the final copy of the MOU sent for signatures and the cover letter for clarity.

With Gratitude,

Royden
