Dear Eleonore,

Let's try to schedule a date to discuss this in a call. It indeed looks very interesting and with potential synergies. I am not traveling until 5th June so quite adaptable until then. Isabelle and I tend to be on UK time so if you can propose times that would work for you bearing in mind that time difference that would be great

Warm regards

Delphine

Subject: RE: Launch of Global Mosquito Alert

Dear Isabelle, Dear Delphine, Dear Stephanie,

Many thanks for your interest in the Global Mosquito Alert Initiative. And Todd, "un grand merci" for connecting us.

I just had a call with State Department yesterday about the initiative and the UNEA meeting was mentioned as a possible venue for discussing our new platform, starting further collaboration and raise visibility.

I would be delighted to have a call with your team when opportune. This week is challenging because of an array of deadlines but if there is any window of opportunity later in May or June, that would be great.

Many thanks again,
Eleonore

Hi Todd, Eleonore,

Thank you for sharing. I saw this on Monday and I was wondering about it. It looks like an interesting initiative. It would be good to understand how people are participating and some of the work to ensure data quality etc... Will it be showcased or presented at the upcoming UNEA in Nairobi (in December)?

Best,

Isabelle

Subject: Launch of Global Mosquito Alert

Hi Delphine, Stephanie and Isabelle,

I wanted to introduce you to my colleague Eleonore Pauwels from the Woodrow Wilson Center. Her team, along with the UN, launched a new program to track and control mosquito borne viruses.
