Hi Fred,

10:00 AM PDT Thursday, June 8 works just fine for skype.

Tony,

We'd like to talk to you about the fitness experiment analysis.  
Would you be available on Thursday June 8th after 10AM your time?  
If not, How about Friday the 9th?  
Fred

Thanks. Fred. I will go through it. OK to send it to John Marshall?

Hi Tony, Ethan and Valentino,  
We have finally submitted our manuscript on modeling reversal drives  
for review, and we published it  
on bioRxiv. <http://biorxiv.org/content/early/2017/05/30/144097>  
yesterday.

You are all in the acknowledgements for helping us with early  
discussions about this work. I know this  
was a long time ago. I'm sorry that it took so long to pull together  
the ms. There were lots of complexities in figuring  
out the modeling and how best to present it – Although Michael Vella  
did a great job in thinking this out, the manuscript  
could probably still use improvement, so your comments are very  
welcome.  
Best wishes  
Fred
