Hi All,

Will send out a more general announcement to the group when I get confirmation from the federal side, but NCSU sent the signed contact back this morning here. I know Renee Wegrzyn and those folks were anxious to get that done and think that could be because that would allow the public program announcement, although that is just my read and not based on anything from them at this point. Will advise if I hear anything more, but wanted to send this along now as a heads up.

Thanks, John
